Update February 11 2024

Update 11th February 2024

Quality of Life

The hope of this update is to address some issues that we've heard echoed throughout the community:

1) Lack of place to use AOE

2) Waiting too long for Titans/Elite Titans to respawn

3) No available instances for Dragon Bone Corp, Vorago, and Icy Vorago

Changes made to Instances:

1) All Titan and Elite Titan Instance (i)'s now have 2 spawns and are AOE (should make farming a lot faster)

2) Vorago, Icy Vorago, Joker, Dragonbone Corp instances have been added to the Owner's Goodiebag

3) Joker Instance was previously only in the Donaiton Store. We have decided to add all Elite Titans to the Legendary Shop for Two Tickets (You can obtain Legendary Ticketes from the 2K20 Boxes dropped from the Vote Boss, or from the Elite Titan Shop)

4) Golden Dice (i) is now available, inventable through Golden Dice + the four Elite Titan Instance (i)s

5) Golden Dice (i) has 100DR/DDR vs Golden Dice which has 50DR/DDR. (You cannot invent another Golden Dice after inventing a Golden Dice (i), this is to prevent people from having both at the same time)

In a future update, we will be adding Toolbelt/Inventory versions of Top Donator Aura (i), Icy Salve Amulet, and other items (This is to free up slots so that we can add full-armour sets to the new bosses we have planned). The ingredients required for these inventory/toolbet inventions will come from these 4 Elite Titans, especially Vorago and Dbone.

Quad Tickets have been added to the Consumable Store for 1000K Bil Tickets.

Bugs/Early Game adjustments:

1) 50K damage is being capped properly at VIP1/2 for all classes

2) Wyrm and all Bosses should now work for extremely high DPS

3) Diglett and Vorago are now rolled out of 50 instead of 100

4) VIP1 Free Zone is now rolled properly

5) Boss rolls will only be for New Players, they will use the old Drop Rate system for all other players

6) VIP Free zone should now tell you what VIP level you are, so you don't farm for the wrong VIP Scroll
